

BUSINESS TECHNOLOGY FOR LEGAL

WHO'S YOUR TECHNOLOGY EXPERT?

We specialize in legal solutions for your firm! How much money are you spending on your office technology? We'll help you maximize billable hours by cutting down your labor costs, optimize your e-filing system, and automate workflow. Our Copiers, Printers, Managed IT Services, and Digital Phone Systems are industry-leading technology solutions with customized features for legal firms small or large.

WHAT'S YOUR PAIN LEVEL?

How much time do you or your paralegals spend on Bates stamping and interrogatories? We have solutions and apps that can significantly give you back those hours. Partnering with us alleviates the frustrations that come with scanning, such as subfolder organization for pleadings, correspondence, depositions, police reports, and cost recovery. Let us show you a technology road map to increase productivity, profitability—and billable hours.

PARTNERING WITH AIS: CREDIBILITY & EXPERIENCE

Supporting over 400 law firms, we are the legal experts in office technology and our experts are dedicated to making your job easier. Our valuable integrative tools for all of our products, services, software, and apps allow you to only utilize what you need.

- Personal injury
- Construction
- Litigation
- Workers comp
- Family
- Criminal
- Civil lit
- Medical malpractice
- Immigration
- Bankruptcy

Let us make the case why AIS should be your legal document technologies partner.

"Having AIS as our IT service provider has freed up our office team to focus on their work and has reduced the administrative headaches that were more frequent before AIS took over the IT-support functions."

- Layne T. Rushforth, Attorney, Rushforth Lee & Kiefer LLP

TECHNOLOGY FOR LAW

IT SERVICES

Our Managed IT Services team allows you to outsource the day-to-day management of your information technology needs. We can even help reduce your network overhead costs, support your current and future business growth, minimize downtime, and implement new technologies—all while proactively monitoring your infrastructure.

TELECOM

Our telecom products and services assist your individualized communication demands. Whether you call it telephony, telecommunications, video conferencing, or, simply, the phone; we offer a full range of services to ensure that you can talk to anyone, anywhere, at any time while lowering your overall costs.

COPIERS AND PRINTERS

We provide a variety of multifunction copiers, printers, and wide-format devices. At AIS, we marry legal line-of-business applications while integrating with your output and scanning devices. We also provide comprehensive managed document services to identify your printing and copying needs. Our print assessment optimizes your document workflow, reduces workload, increase staff productivity, and profitability.

OUR PARTNERS

WHY AIS? BY THE NUMBERS

RESPONSIVE

"Our competitors say they will be there in 4 hours or less. Well that's about the same time we will have you up and running"
