

# BUSINESS TECHNOLOGY FOR MEDICAL

## WHO'S YOUR TECHNOLOGY EXPERT?

We specialize in medical! Whether it's EHR record-keeping, security integration, HIPAA compliance, or disaster recovery plans— we're the partnership your medical practice needs. We'll provide you with industry-leading technology solutions, such as Copiers, Printers, Managed IT Services, and Digital Phone Systems.

## WHAT'S YOUR PAIN LEVEL?

When you partner with AIS, we'll help you get your claims done quicker while streamlining workflow for accurate billing. Are your records protected in the cloud? By pairing our products and services with HIPAA-Compliant apps, we can guarantee your patients are protected. We have full product lines from multiple manufacturers offering the best products, customized invoicing, and no-hassle vendor management.

## PARTNERING WITH AIS: CREDIBILITY & EXPERIENCE

We are medical experts in office technology. Our partnership with over 225 medical offices means we continue to provide knowledge and expertise, specific to the medical needs in the following areas:

- Orthopedics
- Radiology
- Dentistry
- Heart and Vascular
- Specialty and Primary Care

***Let us diagnose your current office technology environment and offer you solutions to improve your practice.***

*"With AIS, when there's a problem, we call up, and it gets taken care of. And, there's an urgency to things, especially the things that matter to us. There were no surprises and fulfillment was the rule... actual legitimacy behind the claims."*

## MEDICAL

### IT SERVICES

Our Managed IT Services team allows you to outsource the day-to-day management of your information technology needs. We can even help reduce your network overhead costs, support your current and future business growth, minimize downtime, and implement new technologies—all while proactively monitoring your infrastructure.

### TELECOM

Our telecom products and services assist your individualized communication demands. Whether you call it telephony, telecommunications, video conferencing, or, simply, the phone; we offer a full range of services to ensure that you can talk to anyone, anywhere, at any time while lowering your costs.

### COPIERS AND PRINTERS

We provide a variety of multifunction copiers, printers, and wide-format devices. At AIS, we marry medical software, such as EHR/EMR by integrating with your output and scanning devices. We also provide comprehensive managed document services to identify your printing and copying needs. Our print assessment optimizes your document workflow, reduces workload, increase staff productivity, and profitability.
